Part B vs. Part D Drugs

- This plan covers Medicare Part D prescription drugs only
- Original Medicare Part B provides benefits for certain chemotherapy drugs, certain drug injections you are given during an ov, and drugs you are given at a dialysis facility
- This plan covers all of your Part D diabetic drugs/supplies. This includes insulin, needles/syringes, alcohol swabs, gauze pads
- Original Medicare Part B will cover your diabetic supplies including monitors, test strips, lancets, etc.
- Part D Vaccines are included in your plan. They include influenza, Pneumococcal Pneumonia, Hepatitis B and Shingles
 - Where you get the vaccine and who administers it will determine your cost

Your Rx benefit highlights- Bonus Drug List

GOOD NEWS!!

- Your plan is providing you a bonus drug list. This list gives you additional coverage on some prescriptions drugs that are normally excluded from coverage on the formulary.
- The drugs listed on the bonus drug list are in addition to your Part D drug coverage.
- The copays that you pay for these additional drugs do not go toward your Medicare Part D out of pocket costs.

Pharmacy Saver Program

- Pharmacy Saver allows members to save money on hundreds of generic prescription medications at participating pharmacies
- No paperwork needed
- Receive generic drugs as low as \$2 for a 30 day supply or \$6 for a 90 day supply
